Upgrade to Secure, Responsible AI for Education
UDT Private AI Platform

UDT
ACCOMPLISH MORE

Education institutions are exploring AI's role in enhancing learning, efficiency, and planning — but must also preserve privacy, meet compliance, and maintain operational control.

AI adoption risks exposing sensitive student and institutional data to unauthorized access or misuse

Complex vendor ecosystems create interoperability challenges across education systems and applications

Limited staff expertise makes responsible, compliant deployment and governance difficult

Empower innovation confidently with the UDT Private AI Platform.

> Safeguard sensitive student and institutional data with built-in privacy, confidentiality, and compliance controls.

> Experience AI-driven automation, analytics, and conversational tools deployed inside secure, private environments.

> Enable seamless integration with vendor-agnostic, multi-cloud interoperability and Model Context Protocol support.

> Support scalable, future-ready adoption through tailored workflows and pilots without long-term software lock-ins.

UDT provides a structured Private AI program that helps education institutions deploy automation, analytics, and conversational tools securely with governance and compliance embedded from the start.

Security & Privacy
Protect sensitive student and institutional data with classification controls, least-privilege access, and integration practices aligned to SOC 2 and other attestations.

Customize & Scale
Support tailored education use cases, exploratory pilots, and cost-neutral proofs of concept while ensuring seamless growth across users, datasets, and models.

Interoperability & Integration
Leverage vendor-agnostic, multi-cloud architecture and integration to connect with education applications while maintaining context, lineage, and reliable interoperability.

Governance & Compliance
Embed FERPA-aligned governance, ethical AI oversight, and operational playbooks for secure model use, data labeling, retention, and deletion practices.

AI-Driven Capabilities
Accelerate processes with automation, analytics dashboards, and conversational AI tools built for private deployment, keeping all data inside the tenant boundary.

Ongoing Support
Build AI capacity with training, readiness sessions, and collaborative review features supported by a dedicated Service Delivery Manager and expert services team.

Accelerate learning outcomes and institutional efficiency by partnering with UDT.

Our Private AI Platform reflects decades of experience helping education institutions adopt transformative technology securely, responsibly, and with measurable value.

› **Trusted in Education:** For more than 30 years, UDT has supported K12 and higher education, delivering secure 1:1 learning programs and modernized, future-ready IT.

› **Nationwide Impact:** We serve students and educators across the US, providing scalable IT and security solutions that empower learning and administrative efficiency.

› **Ongoing Partnership:** UDT is invested in the success of education. We are committed to delivering secure, ethical AI adoption with dedicated, long-term support.

Let's Get Started!

AI doesn't need to compromise privacy to deliver value. The UDT Private AI Platform provides a secure path to explore automation, analytics, and conversational AI while preserving compliance and control.
