

Deploy Faster. Keep Learning On Track.

UDT Lifecycle360 for Education

As K12 districts manage growing, diverse device fleets, they need a more predictable way to deploy, support, and sustain devices without disrupting classrooms or overloading IT teams.

Large-scale device deployments overwhelm district IT teams and delay classroom readiness

Break/fix issues disrupt classroom learning and strain already limited school-based support resources

Fragmented lifecycle data makes technology planning, budgeting, and refresh decisions unpredictable

Move from reactive IT operations to predictable, learning-enabled device lifecycles.

- ▶ Accelerate district-wide device rollouts without increasing internal IT workloads
- ▶ Extend device lifespan with smarter refresh, battery, and refurbishment programs
- ▶ Reduce classroom disruptions through reliable repair, swap, and support workflows
- ▶ Gain visibility to plan budgets, replacements, and lifecycle investments confidently

UDT Lifecycle360 for Education is a modular, end-to-end lifecycle program that aligns teams, processes, facilities, and data to support reliable learning technology at scale. We cover everything from laptops and tablets to interactive panels and infrastructure.

▶ Device Deployment

Streamline device deployment with consistent setup, clear labeling, and reliable delivery so students and staff start learning without delays or IT rework.

▶ Device Renewal

Extend the usable life of devices through battery replacement, refurbishment, and recertification, helping districts stretch budgets and avoid unnecessary refreshes.

▶ Device Personalization

Identify, brand, and prepare devices with asset tags, laser etching, and UV printing to simplify distribution, deter theft, improve inventory tracking, and support district standards.

▶ Secure Retirement

Safely remove devices from service with secure data wipe, compliant recycling, and buyback options that protect student and teacher data and recover value at end-of-life.

▶ Device Repair

Restore devices quickly with tailored SLAs and swap processes that reduce downtime, avoid learning disruption, and ease the burden on school IT teams.

▶ Fleet Visibility

See every device's status, location, and lifecycle stage in one place, empowering smarter planning and faster decisions.

Turn large-scale device programs into consistent classroom readiness.

Trusted by 10 of the nation's 20 largest school districts, UDT brings decades of K12 lifecycle management expertise and proven operations to support teaching and learning.

▶ Purpose-Built for K12

Lifecycle360 is designed specifically for the scale, seasonality, and complexity of K12 environments, supporting 1:1 programs, mixed fleets, and distributed campuses.

▶ Proven at District Scale

UDT serves ~10% of the nation's students, configuring and supporting millions of devices through our trusted Integration & Support Centers.

▶ End-to-End Accountability

From procurement to retirement, Lifecycle360 delivers consistent processes, documented controls, and audit-ready reporting that districts can rely on year after year.

Let's Get Started!

Shift from reactive support to a predictable device lifecycle. UDT's Lifecycle360 helps districts improve reliability, reduce risk, and stretch technology investments while keeping teaching and learning on track.
